

California Triples Gains in English Language Proficiency

2001 and 2002 CELDT Assessments

**Percentage of Students Attaining
Early Advanced Level and Above**

Key Points:

- This chart shows proficiency levels for 862,004 students who have scores for both the 2001 and 2002 CELDT administration.
- The two years of data show overall gains with a much smaller percent of the students in the lower proficiency levels and a greater percent in the higher proficiency levels in year two.
- The percent of students scoring at Early Advanced and above on the CELDT almost tripled from year one to year two.
